WINDOWS VISTA/XP  
MAC OS X

Get a complete package of dedicated tools for professional music creation and/or post-production at substantial savings. Digidesign offers three powerful Pro Tools® software expansion options—Music Production Toolkit 2 for Pro Tools LE® and Pro Tools M-Powered™ users, and Complete Production Toolkit and DV Toolkit™ 2 for Pro Tools LE users. Not only do these toolkits come packed with essential plug-ins and specialized tools to help you work more creatively and faster than ever, they also boost the audio track capabilities of your Pro Tools system, allowing you to create larger mixes than ever.

Music Production Toolkit 2

### Music Production Toolkit 2

For serious musicians and music producers, Music Production Toolkit 2 expands the creative power of your Pro Tools LE or Pro Tools M-Powered system, enabling you to create massive music mixes and get an amazing collection of software at an unbelievable deal. The toolkit provides a full range of groundbreaking virtual instruments and tools to inspire music creation and improve sounds, and allows you to create huge mixes with up to 64 simultaneous mono or stereo audio tracks using your Digidesign\* or M-Audio®\*\* interface.

Create music with any type of instrument using the Structure® LE advanced sample player. Crank up the unmistakable tone of the world's greatest vintage and modern guitar amps with Eleven™ LE. Play the Hybrid™ 1.5 high-definition synthesizer to re-create your favorite synth sounds or something unique. Fix off-beat performances with the Beat Detective™ rhythm analysis, extraction, and correction tool. Then polish your mixes with the Smack!™ LE compressor and TL Space™—Native Edition convolution reverb plug-ins, export your session using the Pro Tools MP3 Option, and send your music to the masses.

Complete Production Toolkit

**Complete Production Toolkit (Pro Tools LE only)**

Get full 7.1 surround mixing power with up to 128 simultaneous audio tracks<sup>†</sup> in Pro Tools LE! The Complete Production Toolkit is the most powerful expansion option for Pro Tools LE, greatly expanding its creative power and capabilities, and offering the ultimate in post-production and music creation versatility. It also offers a full range of groundbreaking virtual instruments and essential plug-ins, and dedicated post and music creation tools that streamline the entire audio production process.

The Complete Production Toolkit comes with all of the same plug-ins, virtual instruments, features, and specialized tools offered in both Music Production Toolkit 2 and DV Toolkit 2. It also equips your system with full 7.1 surround capabilities and expanded tracking, letting you create the hugest, most complex mixes, with up to 128 simultaneous audio tracks<sup>†</sup> and up to 64 simultaneous Instrument tracks. Plus, with its enhanced session interchange features, you can easily transfer large surround sound sessions back and forth between Pro Tools LE and Pro Tools|HD<sup>®</sup> systems, and edit and mix sessions regardless of the Pro Tools platform they were created on.

**DV Toolkit 2 (Pro Tools LE only)**

Edit, mix, and deliver sound for picture on Pro Tools LE using many of the same post-production features and tools found on Pro Tools|HD. DV Toolkit 2 expands the power of your Pro Tools LE system by providing essential plug-ins for post production, support for up to 64 simultaneous mono or stereo audio tracks\*, and dedicated editing, automation, and session management features that make working with sound for film or video a highly efficient affair.

Quickly organize and access all project sounds and files using DigiBase™ Pro. Easily interchange OMF<sup>®</sup>, AAF, and MXF files between Pro Tools and Avid<sup>®</sup> video systems using DigiTranslator™ 2.0. Use specialized post-production tools, including timecode and Feet + Frames functions, Scrub Trim Tool, Video Universe window, and other features. And edit tracks and mix them to professional perfection with the DINR™ LE noise reduction, TL Space—Native Edition convolution reverb, and X-Form<sup>®</sup> time- and pitch-shifting plug-ins. You can even share an MP3 of your session with others using the Pro Tools MP3 Option.
