

Strike Content Expansion

Dear Digidesign Customer,

Welcome to Digidesign's Strike Content Expansion for Strike. The Strike Content Expansion is a collection of new Settings, Styles, Kits, and Mixes that can be used with Strike to add realistic drum tracks to any Pro Tools session. All Pro Tools users creating music at home or in professional environments with Strike, including songwriters, TV/Film composers, DJs, and electronic music producers will benefit from this addition to Strike.

Thanks to input from our network of thousands of professionals and people like you, we've been improving and expanding our software product family. Our aim is to supply a rich feature set, maximum flexibility, and more power. We hope this product serves you well.

Requirements—Strike Content Expansion requires previous installation of the Strike plug-in on a Digidesign-qualified Pro Tools system running Pro Tools 7.0 or higher.

Installation and Operation—For software installation and operating instructions, refer to the *Strike Content Expansion.pdf* document that gets installed with the software. For additional information about plug-ins and their operation, refer to your *DigiRack Plug-ins Guide*.

For information on Pro Tools, refer to *Pro Tools Reference Guide*.

For information on Strike, refer to *Strike Plug-in Guide*.

On-Going Development—Naturally, on-going software development for all Digidesign products continues in high gear. We are already working on new features, so the software will be getting even better. In other words, we'll be there for you down the road, with new enhancements and improvements, to further increase your range of options. At Digidesign, your ideas for future improvements and products are of vital importance to us. Please e-mail your comments or suggestions to plug-prod@digidesign.com or send a letter to the Plug-in Products Manager at our headquarters in Daly City, California.

On behalf of everyone at Digidesign, we wish you many years of creative productivity with your system, and we thank you again for choosing our products.

There are currently no known issues with the Digidesign Strike Content Expansion.
