

Pro Tools HD 8.0.1cs1 Update for Windows

November 11, 2009 — *Read Me Document (Included with Download)*

Only for Pro Tools|HD Systems with Pro Tools HD 8.0.1 for Windows

- This update requires previous installation of Pro Tools HD 8.0.1 software:
 - [Pro Tools 8.0.1 — Downloads & Details](#)
- Single installer for Windows XP and Vista

Who Should Use Pro Tools HD 8.0.1cs1?

Pro Tools HD 8.0.1cs1 for Windows contains fixes in the following areas:

- Editing/Conform
- ProControl
- Video Satellite, Avid video peripherals

Pro Tools HD 8.0.1cs1 is provided as an interim "customer support (CS)" release to address the issues described. While our testing has not shown these changes to introduce other problems, the fixes described have not been fully qualified by Digidesign.

What's Included in Pro Tools HD 8.0.1cs1 for Windows?

Fixed: Exiting the Start/End/Length fields using "/" (the forward slash key from the numeric keypad) caused the entered value to be ignored (Item #118727)

- Resolved an issue in which using the "/" key (forward slash key from the numeric keypad) to exit the Start/End/Length fields after entering a value would cause the entered value to be ignored. This broke the workflow with several 3rd party conform applications, including but not limited to maggot conformalizer software and Virtual Katy software.

Fixed: ProControl channel matrix not functioning properly with Pro Tools 8 (Item #115111)

- Resolved an issue in which the ProControl channel matrix would not display all parameters

Fixed: In some cases, Avid video or satellite track edits don't align properly with video clips in AAF sequence (Item #118252)

- In some cases, a satellite or Avid video track could incorrectly show edits that did not align with the original AAF sequence from Media Composer

Installation Instructions

Pro Tools HD 8.0.1cs1

To update to Pro Tools HD 8.0.1cs1:

1. Verify Pro Tools HD 8.0.1 is installed on your system.
2. Quit the Pro Tools application if it is open.
3. Locate the Pro Tools HD 8.0.1cs1 update installer and launch it.
4. Follow the onscreen instructions to install Pro Tools HD 8.0.1cs1.
5. When installation is complete, restart your computer.

Pro Tools HD 8.0.1cs1 will update the following files to the version listed (use Get Info to view file version):

- ProToolsHD.exe (v8.0.1cs1)
- DFW.dll (v8.0.1cs1)
- FFmt.dll (v8.0.1cs1)
- ProTools.dll (v8.0.1cs1)

Satellite Link

If you installed the Satellite Link option **for the first time** on a satellite system *after* installing Pro Tools 8.0.1cs1, you should also download the separate "standalone" update for this option:

- Satellite Link 8.0cs1 (Windows) — for installation on the Pro Tools HD video satellite system, installs the following update:
 - SatelliteLinkEnabler.dll (v8.0cs1)

If you already installed the Satellite Link option on a satellite system, then updated the satellite system to Pro Tools 8.0cs1, 8.0cs2, 8.0cs3, or 8.0.1, there is no need to download this separate update. If your version of the SatelliteLinkEnabler.dll file in your Programs\Digidesign\Pro Tools folder shows *either* "8.0cs1" or "8.0.1", you do not need to download the separate update for Satellite Link.
