#### **Fixed: Processing With X-Form Using The "Film to PAL TCE +4.1667%" Preset on a Stereo or Multichannel Region Can Throw a DAE Error -7450 (Item #83901)**

- This would occur when the file was longer than about 8 minutes

*X-Form 7.4.2cs1 is provided as an interim "customer support (CS)" release to address the issues described. While our testing has not shown these changes to introduce other problems, the fixes described have not been fully qualified by Digidesign.*
